

The Forty-Ninth Annual Fred W. Schüeler Distinguished Lectureship in Pharmacology

Systems Approaches to Mitochondrial Biology & Disease

An in-person engaging lecture examining how systems biology is transforming our understanding of mitochondrial function and human disease.

January 16, 2026, 12:00 pm

Tulane School of Medicine

Hutchinson Auditorium

1430 Tulane Avenue, New Orleans, LA

Please join us for a reception in Hutchinson Lobby following the lecture. For additional information, contact Nancy Busija at nbusija@tulane.edu

LECTURE BY VAMSI K. MOOHA, M.D.

*Professor of Systems Biology, Harvard Medical School
Professor of Medicine, Massachusetts General Hospital
Member, Broad Institute of Harvard
MIT Investigator, Howard Hughes Medical Institute Boston, MA*
