ETHICS IN ACTION

Some situations don't have easy answers.
This program helps you find yours.

Every campus has moments that test your values — a professor who crosses a line, a teammate who cheats, a friend who asks you to stay quiet. Ethics in Action puts you inside real dilemmas drawn from actual student, faculty, and administrator experiences, and asks the question that matters most:

What would you do?

IN THIS 2-HOUR PROGRAM, YOU'LL EXPLORE

- Real ethical dilemmas drawn directly from campus life
- Consequentialist & non-consequentialist ethical frameworks
- The critical difference between ethical and moral behavior
- Practical tools for leading through hard decisions with clarity and confidence

SAMPLE SCENARIO

"You're a student leader who discovers a fellow officer has been falsifying attendance records for your organization. Confronting them could destroy a friendship — and cost you both your positions. Saying nothing means it continues."
